<p>Sept 10 (Sat)</p>	<p>We arrived in Thailand. The teacher and staff of Kasesart University came to Suvarnabhumi Airport and took us to a shopping mall. We got cell phones and commodities there. When we finished, I ate Pad thai at dinner. Pad thai is popular food in Thailand and it was delicious. After that, we got to the apartment.</p>
<p>Sept 11 (Sun)</p>	<p>We got uniforms in Kasesart university and I bought black shoes in the shop near Kasesart university. After that, we ate a pork crispy in lunch. At night, we ate Yam and Tom yam in dinner.</p>
<p>Sept 12 (Mon)</p>	<p>We studied Epidemiology in Kasetsart university. After that, we participated in the meeting and party in Kamphaengsaen campus. I made the first friends in Thailand. I was so happy, today.</p>
<p>Sept 13 (Tue)</p>	<p>We studied Epidemiology in Kasetsart university. Although a teacher spoke slowly in English, I couldn't fully understand what he said. So, I was taught in it by other students after school. Because there is a examination, I must study very hard.</p>
<p>Sept 14 (Wed)</p>	<p>We studied Epidemiology in Kasetsart university. We went to Wat Phrasri and discussed for planning because we was going to go to Wat Phrasri next Wednesday again and investigate. We came back to Kasesart university and planed.</p>
<p>Sept 15 (Thu)</p>	<p>We studied Epidemiology in Kasetsart university. We learned how to use proMESA and Gpowerwin. We will use them and plan the investigation until next Wednesday. After school, we went to the restaurant for dinner.</p>

<p>Sept 16 (Fri)</p>	<p>We went to Suvarnabhumi Airport from Kasetsart university. In the Suvarnabhumi Airport, Dr. Karen Parrot took us to the conference room and presented to us about export and import. After that, airport staffs served us traditional sweets and we ate them. Because they were so sweet for me, I couldn't eat all of them.</p>
<p>Sept 17 (Sat)</p>	<p>No training</p>
<p>Sept 18 (Sun)</p>	<p>No training</p>
<p>Sept 19 (Mon)</p>	<p>We studied Epidemiology in Kasetsart university. We had the examination of Epidemiology. I was confused because I had the examination in English for the first time. So, I had a lack of time. After school, we planned to do the case study in the temple again.</p>
<p>Sept 20 (Tue)</p>	<p>We studied Epidemiology in Kasetsart university. Today, I learned ANOVA and T-Test. Dr. Suwicha took us to a restaurant and paid for all of us for lunch, I was impressed and liked her better. After school, we planned to do the case study in the temple again.</p>
<p>Sept 21 (Wed)</p>	<p>We observed visitors and pigeons and feces for case study in Wat Phrasri all day long. It was hot, so I was so thirsty and tired. However, Dr. Suwicha took us to the restaurant and ate delicious dishes from the restaurant. Therefore, I did my best after lunch. After school, we put on the data to Excel.</p>

<p>Sept 22 (Thu)</p>	<p>We analyzed the date of the number of visitors and pigeons and feces with NCSS and proMESA and made our presentation for tomorrow. After school, we continued to make our presentation. I couldn't sleep for a nerves.</p>
<p>Sept 23 (Fri)</p>	<p>We made our presentation in the morning. After that, we had our presentation, but I couldn't present well. I presented in English for the first time and it was a great experience for me. I tried it again and wanted to present better.</p>
<p>Sept 24 (Sat)</p>	<p>No training</p>
<p>Sept 25 (Sun)</p>	<p>No training</p>
<p>Sept 26 (Mon)</p>	<p>We started a rotation of Surgery. Today, I learned Soft tissue with Satoshi. Owing to his presence, I could understand a lot in Japanese. It was difficult for me to understand veterinary words in English. Students and teachers in Kasetsart University were so kind, so they answered my question.</p>
<p>Sept 27 (Tue)</p>	<p>I learned Dental. In Dental, I could see oral Surgery. I was surprised that today's first case was removing the oral mass because I thought that this Surgery was in Soft tissue. I could make friends of Thai students through a day, so I was so happy.</p>

<p>Sept 28 (Wed)</p>	<p>I learned Orthopedics. In today 's second case, I assisted in the Surgery of femoral head and neck excision. Besides, I could see the case of the cat had a traffic accident. The cat was taken care with external skeletal fixation. Although I had known this technique, I actually saw for the first time.</p>
<p>Sept 29 (Thu)</p>	<p>I learned Anesthesia. Kasetsart students were so kind and I was taught in one by one by them. Because I didn't remember Anesthesia, I heard a lot about Anesthesia. After that, I monitored Anesthesia by myself and I could do well. It was fun for me to monitor by myself.</p>
<p>Sept 30 (Fri)</p>	<p>I learned Soft tissue for the second time. Today was the last lotation of Surgery, so I was sad and thought that I wanted to spend longer time. After school, Kasetsart students took us the noodle and steak restaurant for lunch. It was very fun. Kasetsart students were so kind.</p>
<p>Oct 1 (Sat)</p>	<p>No training</p>
<p>Oct 2 (Sun)</p>	<p>No training</p>
<p>Oct 3 (Mon)</p>	<p>In the morning, we learned Internal medicine. I belonged to C group and it was happy to make friends of thai people. I saw and helped examination of Ophthalmology. Dr. and students translated in English for me. Afternoon, we learned Pathology. Veterinar words of Pathology was difficultt for me.</p>

<p>Oct 4 (Tue)</p>	<p>We learned Pathology. We dissected the cat which had hydronephrosis. After that, we observed a lot of sample by microscope and Dr. Chaiyan interpreted about them. Although his interruption was full and plain, it was difficult for me to understand because of veterinary words.</p>
<p>Oct 5 (Wed)</p>	<p>We learned Pathology. We discussed the case of the dog has anemia. The explanation of Dr. Phudit was full and plain for us because his thought was written with white papers by him. I liked his thought and wanted to study like him.</p>
<p>Oct 6 (Thu)</p>	<p>We learned Pathology. We made a blood smear to count the number of blood cells. Because I had made a blood smear, I could make it well. Dr. Phudit was so kind for me, so I managed to understand not to leave behind one.</p>
<p>Oct 7 (Fri)</p>	<p>We learned Pathology. Pathology brought to us from basics to application. It was easy to understand, but a lack of knowledge prevented from my understanding. Owing to kindness of teachers, we managed to understand. We could get the application of my knowledge through the discussion of pathology.</p>
<p>Oct 8 (Sat)</p>	<p>No training</p>
<p>Oct 9 (Sun)</p>	<p>No training</p>

<p>Nov 21 (Mon)</p>	<p>We were in equine unit. Today's impressive case was laminitis. The back of the hoof was frozen by liquid. I was surprised to see for the first time. Dr. Bell explained about the treatment in English and I asked about importance of the treatment.</p>
<p>Nov 22 (Tue)</p>	<p>We were in equine unit. Today's impressive case was lameness. I was glad to touch and walk together with the horse in order to judge whether the horse had lameness or not. After that, we practiced putting a bandage over the leg. The teacher gave a score for us.</p>
<p>Nov 23 (Wed)</p>	<p>We were in equine unit. Today's impressive case was colic. Colic is the most popular case for a horse. There are many kind of colic, but I couldn't judge which type of colic. I have to check with the Internet until tomorrow and I will tell my teacher about it.</p>
<p>Nov 24 (Thu)</p>	<p>We were in equine unit. Today's impressive case was castration. I saw a castration of a horse for the first time. Horse's surgery was exciting for me because the body of a horse was bigger than other animals. I wanted to assist of my teacher.</p>
<p>Nov 25 (Fri)</p>	<p>We were in equine unit. Today, there were only Japanese students because Thai students went to Bangkok. Today's impressive case was lameness. Our teacher treated with chinese medicine. I saw what the horse was pricked by the needles and injected.</p>
<p>Nov 26 (Sat)</p>	<p>No training</p>

Weekly Report Rakuno Gakuen University Name Fujimoto Jyumpei

Note: This report must submit to the teaching staff at your university via e-mail and CC CVE office. Not necessary to report on holiday and weekends (Sat & Sun) unless the training was being held.

<p>Nov 27 (Sun)</p>	<p>No training</p>
<p>Nov 28 (Mon)</p>	<p>We were in equine unit. In the morning, we did physical examination of our horse. After that, we helped other groups and prepared for presentation. In the afternoon, we presented about our horse. Because there are many teachers, I felt uneasy. However, we could answer many questions.</p>
<p>Nov 29 (Tue)</p>	<p>We were in equine unit. In the morning, we learned about blood parasite of equine for example, Trypanosoma and Piroplasma. In particular, Trypanosoma is more important than others because Trypanosoma causes various diseases. I thought that we have to know Trypanosoma in equine unit.</p>
<p>Nov 30 (Wed)</p>	<p>We were in equine unit. In the morning, we cleaned the surgery room because we didn't need to take care of our horse today. We got 10 points for equine unit by cleaning the room. We were so glad because we have to get 60 points until we would finish the equine unit.</p>
<p>Dec 1 (Thu)</p>	<p>We were in equine unit. We selected the teacher of tomorrow's oral examination at random. After school, I saw equine surgery of fracture. Some students saw until the teachers finished the surgery. After that, I asked my questions to my teacher.</p>
<p>Dec 2 (Fri)</p>	<p>We were in equine unit. In the morning, only Japanese students had oral examination of bovine unit but I could not talk anything more than I thought. Maybe I thought that my studying was less than others, I regretted. In the afternoon, we had oral examination of equine unit. I talked about our cases.</p>
